

A Research Report
by IEE

Transmission Planning, Congestion in W3

India Electron Exchange

Table of Contents

GRID Constraints	3
A. Transmission Planning & its Limitations	3
B. Transmission Congestion	3
1. Transmission Constraint because of a Pocket of High Demand	3
2. Transmission Constraint because of a Pocket of High Generation.....	3
C. Other Reasons which could lead to Transmission Constraint	4
D. Why it needs to be discussed URGENTLY?	4
A Case Study on W3	5
A. Lack of LTOA with lot of Merchant Capacity in Chhattisgarh and W3.....	5
B. Change in the Methodology of Calculation of Available Transmission Corridor	5
C. Delayed project execution by Reliance Transmission.....	5
1. North Karanpura Transmission Company Ltd	5
2. Talcher-II Transmission Company Ltd	6
D. Commissioning of all units of Sipat.....	6
E. Grid Collapse has brought Reliability of Systems at the focal point	6
ANNEXURE	7
A. Transmission Lines whose delayed/early commissioning is causing transmission constraint	7
1. Transmission Line addition in Eastern Region causing transmission constraint	7
2. Transmission addition causing constraints in Western Region	7
3. Transmission addition in Southern Region causing transmission constraints.....	7
B. Generating Units who's delayed/early commissioning has caused a system Constraints	8
1. Generating Units in SR who's delayed/early commissioning has caused a system constraint	8
2. Generating Units in NER who's delayed/early commissioning has caused a system constraint.....	8
C. Existing Transmission Line Constraints	8
1. Transmission Line constraints in Southern Region	8
2. Transmission Line constraints in North Eastern Region	9
3. Transmission Line constraints in Northern Region	10
4. Transmission Line constraints in Eastern Region.....	11
5. Transmission Line constraints in Western Region	11
